Project overview

Integrated CCUS projects

- Pilot project
 - CCS Barendrecht
- Large scale infrastructure
 - CCS ROAD
 - CCS Porthos
 - CCUS Aramis
 - BECCUS
 - Blue Horizon

CO₂-capture projects

- Waste industry: Twence, AVR, AEB Amsterdam
- Refinery and chemical industry: Tata Steel, BP, Exxon, Air Products, TotalEnergies

CO₂-storage projects

- ENI
- Shell
- ONEDyas
- TotalEnergies
- Harbour Energy

Strategic CCUS studies

- CCS feasibility studies in Vietnam, Peterhead Scotland, Oman
- Dutch CO₂ storage requirement
- Cost effectiveness of CO₂ storage alternatives

We help industry and regulators effectively implement CCUS projects, to reach their decarbonization goals for a climate neutral future.

CCUS solutions: *How we help our clients*

Accelerating complex procedures and project development

Realizing safe CCUS chains and permanent storage

Creating resilient projects through effective coordination with all stakeholders

Providing technical, spatial and environmental strategic developments

Developing cost-efficient solutions and capture subsidies available
